

Disaster Recovery & Security

Scottship Solutions

Overview

Disaster Recovery and Security involve creating plans and systems to protect your business from unexpected disruptions and security breaches. This service ensures that your data, technology infrastructure, and operations can withstand and recover from both natural disasters and cyber threats.

CHALLENGES YOU FACE

- **Inadequate Data Backup:** Your business lacks a reliable plan for backing up data, leaving you vulnerable to loss.
- **Cybersecurity Threats:** Increasing risks from cyberattacks and data breaches expose your business to potential damage and downtime.
- **Unprepared for Disasters:** No clear disaster recovery plan in place to ensure business continuity in the event of an emergency.
- **Data Security Compliance:** Difficulty in keeping up with evolving regulations, leaving your business at risk of non-compliance.

SOLUTIONS

Our Disaster Recovery and Security service provides comprehensive strategies to protect your business from unexpected threats and ensure swift recovery. We evaluate your current infrastructure, implement robust data backup solutions, and develop a disaster recovery plan that aligns with your business needs. From securing your network to ensuring compliance, we offer peace of mind that your business is protected.

Risk Assessment

Data Backup Solutions

Disaster Recovery Planning

BENEFITS

1

Business Continuity

Ensure that your operations can recover quickly and effectively from both natural disasters and cyberattacks. This helps reduce downtime and protects your revenue streams during unforeseen disruptions.

2

Data Security

Implement advanced security measures to protect your sensitive data from cyber threats. With secure backups and network protection, your business can mitigate the impact of potential breaches.

3

Peace of Mind

With a disaster recovery plan in place, you can focus on your business knowing that you are prepared for the unexpected. You'll have the assurance that your business can continue running smoothly despite disruptions.

How It Is Accomplished

Our Disaster Recovery and Security service begins with a thorough assessment of your current systems and potential risks. We work closely with your team to implement secure data backups and create a tailored disaster recovery plan that ensures business continuity. With ongoing monitoring and testing, we maintain and update your security and recovery protocols to address new threats and challenges.

SHOW ME THE TIME FACTS

- **Repetitive Task Impact:** It's estimated that 45% of the work activities individuals are paid to perform can be automated by current technology, representing about \$2 trillion in annual wages in the United States alone.
- **Manual Task Anxiety:** Over 70% of employees express anxiety over the potential for human error in their work, highlighting the stress and mental health impact of manual processes.
- **Excessive Meeting Time:** Research indicates that middle managers spend over 35% of their time in meetings, and upper management can spend up to 50% of their time in meeting-related
- **Automation and Productivity:** Businesses that implement automation technologies can see productivity increases of up to 40%. Automation can streamline processes, reduce manual errors, and free up employees to focus on more strategic tasks.
